Kill A Watt™

Watts killing you?

- LCD Display
- Cumulative Killowatt-Hour Monitor
- Forecast Your Costs
- Also displays Volts, Amps, Watts, Hz, VA
- 0.2% Accuracy

Electricity bills can be murder. But now you can cut down on costs and find out what machines are actually worth keeping plugged in. Simply connect your appliances to the Kill A Watt™, and it will assess how efficient they really are. Large LCD display will count consumption by the Killowatt-hour, same as your local utility. You can figure out your electrical expenses by the day, week, month or year. Check the quality of your power by monitoring Voltage, Line Frequency, and Power Factor. Now you'll know if it is time for a new refrigerator or if that old air conditioner is saving you money. Don't be another casualty. With the amazing Kill A Watt™ you'll have wasteful devices pushing up daisies.
